WHEN YOU DEAL WITH DEL AMO

Del Amo Nurseries was established in 1921 and dedicated to the growing of *quality* nursery stock for the wholesale trade.

For the past thirty-eight years the business has expanded every year until now it is rated among the largest in the West. It maintains one of the largest and most complete stocks of ornamental plants and trees to be found anywhere.

Nursery buyers who visit the growing grounds for the first time are amazed at the size and variety of the field and container grown stock, and especially our huge stock of large specimen shrubs and trees.

Climatic and soil conditions in the Del Amo area are naturally one of the biggest contributors to the widely known **QUALITY** that has given Del Amo its enviable reputation among retail nursery operators and landscape contractors.

Del Amo grown ornamentals are constantly being sought for the most outstanding landscape jobs in Southern California.

QUALITY of stock and prompt **SERVICE** are the most important considerations between the wholesale grower and the retail nurseryman — and it is these two factors that we're proud of — and why we can say without hesitation — our best references are the people who have done business with us in the past.

We'd like very much to have you come out and visit us — full directions for reaching our nursery will be found on the inside back cover.
